FIESTAS
There are a fixed number of public holidays in the Spanish calendar but some dates vary locally. National public holidays include **Navidad** (Dec 25), **Reyes** (Jan 6), the **Día de los Trabajadores** (1 May), the **Día de la Hispanidad/del Pilar** (Oct 12) and the **Día de la Constitución** (Dec 6). Additionally, each autonomous region and town has at its discretion a series of public holidays that usually coincide with local traditions like a patron saint's day or other celebrations such as **Carnaval**. Thus there is a holiday in Madrid for **San Isidro**, the city's patron saint, and one in Catalonia for **Sant Jordi**, who is the patron saint of the region.

FRANQUISMO

Franquismo is the term used to refer both to the years when General Francisco Franco was the dictator of Spain (from the end of the **Guerra Civil** in 1939 to his death in 1975) and to his authoritarian style of government. Franco tried to impose traditional Catholic values and to make Spain economically self-sufficient. In the 1960s, after a long period of isolation, the country began to open its doors to foreign investment and influence. On Franco's death, Spain became a democratic constitutional monarchy.

GAUCHO

Gaucho is the name given to the men who rode the **Pampa**, the plains of Argentina, Uruguay and parts of southern Brazil, earning their living on cattle farms. Important parts of the **gaucho**'s traditional costume include the

faja, a sash worn round the waist, the **facón**, a sheath knife, and **boleadoras**, strips of leather weighted with stones at either end which were used somewhat like lassos to catch cattle. During the 19th century this vast pampas area was divided up into large ranches and the free-roaming lifestyle of the **gaucho** gradually disappeared.

EL GORDO

El Gordo, "the fat one", refers to a large lottery jackpot, particularly the one offered in the Spanish **Lotería Nacional** at Christmas. The **Sorteo Extraordinario de Navidad** takes place on December 22 and the jackpot is worth several million pounds to the holder or holders of the winning number. Because of the cost of buying an entire number, people generally buy **décimos** (tenth-part shares), which means that the total winnings are usually shared out between a number of people.

GRINGO

The word **gringo** is a derogatory term used in Latin America to refer to white English-speakers, usually Americans, especially in the context of alleged economic, cultural and political interference in Latin America. One rather fanciful theory traces its origin to the Mexican-American War of 1846-48 and the song "Green Grow the Rushes-oh", supposedly sung by the American troops. According to another theory it is a corruption of **griego** or "Greek", in the sense of anything foreign and unintelligible, as in the English expression "it's all Greek to me".

GUARANÍ

Guaraní is an American Indian language of the **tupí-guaraní** family and is widely spoken in Paraguay, Brazil, Argentina and Bolivia. In Paraguay it is the majority language and has equal official status with Spanish, which is spoken mainly by non-Indians. In parts of southern Brazil, **tupí-guaraní** is the basis for a pidgin known as **Língua Geral**, now losing ground to Portuguese. From **guaraní** and its sister dialect **tupí** come words like "jaguar", "tapir", "toucan" and "tapioca".

GUARDIA CIVIL

The **Guardia Civil**, commonly referred to as **la Benemérita**, is the oldest of Spain's various police forces. A paramilitary force like the French

Gendarmerie, it was set up in 1844 to combat banditry in rural areas, but was also used as an instrument of repression in the cities. Under Franco it was resented by many as an oppressive, reactionary force, and was especially hated in the Basque Country. With the return of democracy, Franco's despised **Policía Armada** were reformed as the **Policía Nacional**, and the present-day role of the **Guardia Civil** was redefined. They are mainly stationed in rural areas, and their duties include policing highways and frontiers and taking part in anti-terrorist operations. Their traditional tunics and capes have been replaced by a green uniform, and the famous black patent-leather three-cornered hats are now reserved for ceremonial occasions.

GUERRA CIVIL ESPAÑOLA

Spain's political climate was extremely volatile in the 1930s. The elections of February 1936 were won by a coalition of socialist and anarchist groups known as the **Frente Popular** or **FP**, and were followed by a period of social disorder. On 18 July of that year, General Francisco Franco led a military coup. In the ensuing war Franco's side was known as the **nacionales** and the government forces as the **republicanos**. The fighting was bitter and protracted, and the Nationalists' superior firepower finally triumphed. The war ended officially on 1 April 1939, when Franco proclaimed himself **Jefe del Estado**, a position he held for the next 36 years.

leísmo *sm use of "le" instead of "lo" and "la" as direct objects*;

LEÍSMO, LOÍSMO, LAÍSMO

These terms refer to the reversal of the standard distinction between direct and indirect object pronouns for people in Spanish. Normally **lo(s)** and **la(s)** are the direct object pronouns (eg: **Lo/La vi ayer** I saw him/her yesterday) and **le(s)** the indirect equivalents (eg: **Le di tu recado** I gave him/her your message). **Leísmo** involves replacing **lo(s)** and **la(s)** with **le(s)** (eg: **Le vi ayer**), while **loísmo** and **laísmo** mean using **lo(s)** and **la(s)** instead of **le(s)** (eg: **Lo/La di tu recado**). Whereas **leísmo** is relatively socially acceptable in most of Spain, **loísmo** and **laísmo** tend to be frowned upon in most areas.

CONJUNTO MARIACHI

The **mariachis**, bands of itinerant Mexican musicians, are mostly to be seen in the Plaza Garibaldi in Mexico City, wearing their traditional **charro** costumes: sequin-studded cowboy-style suits and wide-brimmed Mexican hats. Besides being a major tourist attraction, they provide music in the form of love songs for weddings, birthdays and **quinceañeras** (coming-out balls for Mexican girls who have reached their 15th birthday). The term **mariachi** is said to derive from the French word for wedding.

MARTES Y TRECE

According to Spanish superstition Tuesday is an unlucky day, even more so if it falls on the 13th of the month. As the proverb goes, "**En martes, ni te cases ni te embarques**". In many Latin American countries it is Friday 13th that is considered unlucky.

NÁHUATL

Náhuatl is the indigenous Mexican language that was once spoken by the Aztecs and which has given us such words as "tomato", "avocado", "chocolate" and "chilli". The first book to be printed on the American continent was a catechism in **náhuatl**, edited by a Franciscan monk in 1539. Today **náhuatl** is spoken in the central plateau of Mexico by a million bilingual and monolingual speakers.

Nochebuena *sf* Christmas Eve

NOCHEBUENA

Traditional Christmas celebrations in Spanish-speaking countries mainly take place on the night of **Nochebuena**, Christmas Eve. These include a large Christmas meal, going to Midnight Mass, **Misa del Gallo**, if you are a Catholic, and, in Spain, watching the seasonal message from the King on TV. Presents are traditionally given at the Epiphany by **los Reyes Magos**, the Three Kings, but due to ever increasing Anglo-Saxon influence some people also give presents on Christmas Day.

Nochevieja *sf*, **nochevieja** *sf* New Year's Eve;

NOCHEVIEJA

Nochevieja, or New Year's Eve, is one of the most important seasonal celebrations in Spanish-speaking countries. Whereas **Nochebuena** is traditionally spent at home with the family, **Nochevieja** is an occasion for going out. In Spain, the highlight of the evening is **las campanadas**, the chimes of the clock at twelve o'clock. Until quite recently, the **Puerta del Sol** clock in Madrid was the most viewed image in live broadcasts ushering in the New Year, but nowadays different TV stations choose different cities when it comes to broadcasting the chimes. As the bells strike it is traditional to eat twelve grapes, one for each chime, a custom known as **las uvas de la suerte** or **las doce uvas**.

OPOSICIONES

Being a civil servant in Spain means having a job for life, but applicants for

public-sector jobs must pass competitive exams called **oposiciones**. The candidates (**opositores**) must sit a series of written exams and/or attend interviews. Some applicants can spend years studying for and resitting exams, so preparing candidates for **oposiciones** is a major source of students for many **academias**. All public sector appointments that are open to competition are published in the **BOE**, an official government publication.

OPUS DEI

The **Opus Dei**, also referred to as **la Obra**, is an influential but very controversial Catholic association founded in 1928 with the aim of spreading Christian principles in society. It has a direct link to the Vatican which in practice means that it enjoys complete independence from local diocesan authorities. During the Franco era members of the **Opus** formed the intellectual backbone of the régime. Members of the **Opus** are particularly well-represented in educational circles: the universities of Pamplona in Spain and Piura in Peru are run by it. In 2002 the priest who founded **Opus Dei**, Josemaría Escrivá de Balaguer, was canonized by Pope John Paul II.

PELADO

A stock figure in Mexican theatre and film, the **pelado** is a kind of rural anti-hero cum lovable rogue who survives by his quick wits in the foreign environment of the city. The Mexican actor and comedian Mario Moreno (1911-94) based the character **Cantinflas** on the **pelado**, for which he is famous all over the Spanish-speaking world. The **pelado** is closely related to the literary figure of the **pícaro** and forms part of a long line of anti-heroic characters in Hispanic literature.

PERONISMO

General Juan Domingo Perón (1895-1974) came to power in Argentina in 1946, on a social justice platform known as **justicialismo**. **Peronismo** stood for nationalization of industry, trade unions, paid holidays, the welfare state, and the provision of affordable housing. Women were given the vote in 1947, a move championed by Perón's charismatic wife "Evita" (María Eva Duarte). Following her death in 1952, Perón's support began to crumble and he was driven into exile in 1955. His party was banned and did not regain power until 1973, when he was recalled from exile to become President. He died the following year. **Peronismo** as a movement has survived, and the Peronist party returned to power in 1989 under Carlos Menem.

PÍCARO

In Spanish literature, especially of the Golden Age, the **pícaro** is a roguish character whose travels and adventures are used as a vehicle for social satire. The anonymous **Lazarillo de Tormes** (1554), which relates the life and adventures of one such character, is thought to be the first of the genre known as the picaresque novel, or **novela picaresca**. Other well-known picaresque novels were written by Cervantes (**Rinconete y Cortadillo**) and Francisco de Quevedo (**El Buscón**).

PRENSA DEL CORAZÓN

The **prensa del corazón** is the generic term given in Spain to weekly or fortnightly magazines specializing in society gossip and the social lives of the rich and famous. The pioneer was **¡Hola!** which first appeared in 1944 (**Hello!** magazine is the English-language version), while other popular titles include **Pronto**, **Lecturas**, **Semana** and **Diez Minutos**. In recent years, TV stations have followed their lead with more and more celebrity and gossip programmes (**programas del corazón**) every day.

PULQUE

Pulque is a traditional alcoholic drink from Mexico. Thick, slightly sweet and milky, it is brewed from the juice of the agave plant, or **maguey**, and is roughly equivalent in strength to beer. It was the sacred drink of the Aztecs, who used it in offerings to the gods and also for medicinal purposes. In modern-day Mexico it is often given to children since it is rich in vitamins, and in the cities it is sold in special bars called **pulquerías**.

QUECHUA

Quechua, the language spoken by the Incas, is the most widely spoken indigenous language in South America, with some 13 million speakers in the Andean region. The first Quechua grammar was compiled by a Spanish missionary in 1560, as part of a linguistic policy intended to aid the process of evangelization. In 1975 Peru made Quechua an official state language. From Quechua come words such as "llama", "condor" and "puma".

QUINIELA

The **quiniela** is the Spanish equivalent of the football pools and coupons are available from **estancos**. Players can predict a home win (1), a draw (X) or an away win (2) for most premier and first division matches. 15 correct forecasts gets the biggest prize, but 10 or more correct forecasts also wins some money. The sums won vary from week to week depending on the takings or **recaudación**. There is also a version for horse racing, the **quiniela hípica**, although it is not so widespread and most betting on horses is done at the racecourse.

REAL ACADEMIA ESPAÑOLA

The **Real Academia Española (RAE)** was created in 1713 to protect the purity of the Spanish language. There are 46 members appointed for life from among Spain's most celebrated writers and linguists. It works in collaboration with the 21 other Spanish language academies, which represent all the countries where Spanish is a native language.

REALISMO MÁGICO

Realismo mágico, which derives from a term coined by the Cuban writer Alejo Carpentier in 1949, **lo real maravilloso**, refers to a primarily Latin American literary genre in which the writer combines elements of the fantastic and realistic in a conscious effort to reconcile tradition with modernity and American-Indian and Black oral culture with European literary writing. The most celebrated magical realist writer is Colombian Nobel prize winner Gabriel García Márquez.

RECONQUISTA

The term **Reconquista** refers to the eight centuries during which the Christian kings of the Spanish kingdoms gradually reclaimed their country from the Moors, who had invaded the Iberian Peninsula in 711. It is generally accepted that the reconquest began in 718 and ended in 1492, when Ferdinand and Isabella, the **Reyes Católicos**, retook Granada, the last Muslim stronghold. The final years of the **Reconquista** were a time of great intolerance with Arabs and Jews being forcibly converted to Christianity, after which they were known as **conversos**. Those refusing to be converted were expelled in 1492.

DÍA DE REYES

In the Spanish-speaking world, **los Reyes** or **el Día de Reyes** is the day when children and adults traditionally receive presents for the Christmas season. When they go to bed on January 5, children leave their shoes outside their bedroom doors or by their windows for the **Reyes Magos** (Wise Men) to leave presents beside. They may already have written letters to **SS.MM. los Reyes Magos de Oriente** with a list of what they would like. For **Reyes** it is traditional to eat **Roscón de Reyes**, a ring-shaped cake studded with frosted fruits and containing a little trinket or coin.

SACRA *sm abr* (*Argentina*) = **Sindicato de Amas de Casa de la República Argentina**

SACRA

Founded in 1984, **SACRA**, or the **Sindicato de Amas de Casa de la República Argentina**, was the world's first trade union for housewives. One of its main aims has been to redefine housework as employment and to obtain for its members the salaries, pensions and health benefits traditionally associated with union membership. It has developed an educational programme designed to improve women's job opportunities, organized cheap holidays for housewives and obtained free medical treatment for its members. While union membership has allowed thousands of women to take part in public affairs, critics believe that the idea that housewives should have salaries simply reaffirms the stereotypical view that women function best in the home and, in the long run, may encourage non-participation outside.

SANFERMINES

The **Sanfermines** is a week-long festival starting on July 7 in Pamplona (Navarre) to honour **San Fermín**, the town's patron saint. One of the main events is bullfighting. The bulls have to be led from their enclosure to the bullring early in the morning through the city's main streets; young men, dressed in traditional red berets, white shirts and trousers with red sashes round their waists, run through the streets leading the fast-moving bulls. This activity, known as the **encierro**, in which people risk serious injury and even death, was popularized by writers such as Ernest Hemingway and now attracts visitors from all over the world.

SAN JUAN

The **Día de San Juan** on June 24 fuses Christian tradition with ancient summer solstice celebrations. In many areas, particularly near the sea, it is customary to light large bonfires on open ground on the night of June 23 and to burn an effigy, usually made of pieces of wood and rags, at the stake. These **hogueras de San Juan**, which are often accompanied by fireworks and music, draw crowds of people wanting to dance or simply to enjoy the summer evening, until the fire dies out in the small hours.

SANTO

As well as celebrating their birthday, many Spaniards and Latin Americans celebrate their **santo** or **onomástica**. This is the day when the saint whose name they have is honoured in the Christian calendar. It used to be relatively common for newborn babies to be named after the saint whose day they were born on. So a boy born on July 25 (Saint James's day) stood a good chance of being christened "Santiago". The tradition may be dying out now that parents are no longer restricted to names from the Christian calendar. In Spain, as with birthdays, the person whose **santo** it is normally buys the drinks.

SEMANA SANTA

In Spain celebrations for Catholic **Semana Santa** (Holy Week) are often spectacular. **Viernes Santo**, **Sábado Santo** and **Domingo de Resurrección** (Good Friday, Holy Saturday, Easter Sunday) are all national public holidays, with additional days being given as local holidays. There are long processions through the streets with **pasos** - religious floats and sculptures. Religious statues are carried along on the shoulders of the **cofrades**, members of the **cofradías** or lay brotherhoods that organize the processions. These are accompanied by **penitentes** and **nazarenos** generally wearing long hooded robes. Seville, Málaga and Valladolid are

particularly well known for their spectacular Holy Week processions.

SOBREMESA

After the main meal of the day, which usually takes place at around 2 or 3 p.m., the Spanish have traditionally lingered on at table drinking coffee and either chatting or watching TV before returning to work later in the afternoon. If they have more time, they may even have a liqueur or play cards. While **estar de sobremesa** is also occasionally applied to the period after the evening meal, it is more usually taken to mean after lunch, and the **sobremesa** time band used in TV programme listings applies only to between 2 and 5 p.m.

ZARZUELA

Zarzuelas, named after the Zarzuela Palace where they were first performed in the 17th century for the entertainment of Philip IV, are a kind of Spanish comic folk opera. They are usually in three acts, and their chief ingredients include stock characters, traditional scenes and a mixture of dialogue, music and traditional song. After a decline in popularity in the 18th century, interest in this very Spanish genre was rekindled as part of the 19th century revival of Spanish nationalism.
